* Regulation 103-133 sets forth with particularity the requirements that an applicant must demonstrate in order to demonstrate "fit, willing, and able."

S.C. Code Regs. 103-133(1) also provides in relevant part that "[t]he public convenience and necessity criterion must be shown by the use of shipper witnesses, if the applicant applies for authority for more than three contiguous counties." The term "shipper witness" is not defined in the regulation, but the term "shipper witness" refers to a witness who can support the testimony of the applicant regarding the need for additional services in an area. Under S.C. Code Ann. §58-23-590, the applicant must prove that the "proposed service ... is required by the present public convenience and necessity." While an applicant will testify that his services are needed in an area, the shipper witnesses are to present supporting testimony that the services are in fact needed.

Generally, a shipper witness includes, but is not limited to, a person who books, attempts to book, or controls the shipment of goods. In the context of providing supporting testimony regarding the present state of public convenience and necessity, a shipper witness is someone who, through first hand knowledge, is familiar with the availability, or unavailability, of moving services in an area. First hand knowledge should come from either requiring moving services personally or from booking moving services for a company or business, such as a relocation officer for a company. To properly address the public convenience and necessity criterion, a shipper witness should be able to present testimony concerning efforts to obtain moving services and the relative ease or difficulty in obtaining moving services from existing carriers in an area or areas proposed to be served by the applicant. While a shipper witness may have used the services of the applicant and may testify to satisfaction with the applicant's services, testimony regarding the applicant's service and satisfaction with those services goes more to the "fitness" of the applicant rather than to the issue of public convenience and necessity.

Further, testimony of the shipper witness(es) must address the "present public convenience and necessity." (Emphasis added.) In other words, testimony should relate to recent events or incidents and should not focus on events that are distant or remote in time.
